Subject: Primary Copper - OP Comments

Chuck,

Attached please find OP's comments on the Primary Copper NPRM. Would you like me to set up a meeting for tomorrow so that we can go through them?

I think it would be good if we had a shared file. Would you like to post the file to the Primary Copper Teams site or would you like me to share the file?

The following are some notations I've used:

^ This mark in a comment bubble flags sections of the preamble that include demographic results. Just search on ^ to find these sections.

Comments in gray highlight are not related to EJ/demographics. They are some additional things I caught.

Thanks. We look forward to talking with you all soon.

Ann
